

D211 POST: FREMD HOLDS INTERNSHIP SIGNING DAY

William Fremd High School held its first ever Internship Signing Day in the school's gym April 24. The event, which was modeled off of College Signing Days, students signed letters of intent to participate in internships with area businesses during the summer.

This year students will fill internships in approximately 60 different businesses including Motorola Solutions, Cisco Solutions, and Porter Lee, and many others. During the signing ceremony Principal Kurt Tenopir thanked the businesses for providing students with internship opportunities. Tenopir added that the signed letters represented the students' promise to represent themselves and Fremd High School in a professional manner in the workplace.

Any District 211 student wishing to get involved in the internship course is encouraged to join the Schoology course RPCG6-58VQR. Companies who wish to host internships can fill out the form at www.tinyurl.com/internshipost.
