

INAUGURAL D211 CAREER EXPO A SUCCESS

High school students and local businesses had a chance to come together as more than 400 students visited 90 local businesses at the inaugural High School District 211 Career Expo, held on April 4 at Palatine High School. The Expo, which was open to all District 211 students, provided an opportunity for students to connect their pathways to careers, with all 16 career clusters being represented at the event. Participating businesses focused on internships, career exploration, apprenticeships, and jobs to help students.
