

D211 POST: NATIONAL SCHOOL LUNCH WEEK (SLIDESHOW)

October 12-16, is National School Lunch Week. Throughout District 211 members of our food service department have continued to work to ensure that, even during remote learning, our students have access to stable meals. To date, District 211 has provided more than 1 million meals since the initial move to remote learning, and our food service staff continue to pack more meal bags every day while still providing normal meal service for teachers and staff members working in the schools.
